

Protecting Your Digital Assets

In today's digital age, protecting your business sensitive data and your client's personal information is vital for your business integrity and continuity, especially with the increasing risk of cyber threats.

Cyber Security Takaful is designed to provide protection against cyber threats that may cause exposure to legal action and/or liability and damage or loss to your business and computer systems. The scheme provides coverage for:

- **Privacy Liability**
- **Network Security Liability**
- **Media Liability**
- **Cyber Extortion**
- **Data Asset Loss**
- **Business Interruption**
